Central Vacuums  
Selection Guide

### Broan vacuums: A successful blend of innovation and efficiency

Broan has always been innovating and creating central vacuums that make the competition green with envy. We aim to offer you efficient, high-performance vacuums that exceed your expectations with respect to housekeeping and simplify the cleaning of your home.

Made in Canada and designed to the highest standards of quality, some of our products allow you to clean up to 12,000 sq. ft. of surface area, all while maintaining superior suction.

Our engineers are constantly working to innovate and develop new technologies in order to reduce the noise level of our appliances. All Broan power units are equipped with a sound suppression system that requires absolutely no need for an external muffler - an innovative feature meant to increase your comfort.

Offered in two Series, Broan central vacuum systems are sold separately or as kits that include: The power unit, hose, tools and brushes. You are sure to find a model that suits your needs.

By browsing this buying guide, you will be able to select the Broan central vacuum system that best suits your needs.

- 1. EVALUATE THE SQUARE FOOTAGE** of your home.  
(include all rooms to clean with the central vacuum)  
\_\_\_\_\_ sq. ft.
- 2.** Based on the square footage, **SELECT THE APPROPRIATE POWER** of Broan central vacuum system.  
Up to 3,000 sq. ft.: Pages 4 to 7  
Up to 6,000 sq. ft.: Page 8  
Up to 12,000 sq. ft.: Page 9
- 3.** Depending on the **MAIN FLOORING TYPE** in the house, choose the appropriate Broan central vacuum kit. Look for the illustrations below to guide you.

Hard floor

Carpet

- 4.** Estimate the number of required wall inlets: House square footage \_\_\_\_\_ sq. ft.  
 $\div 600 =$  \_\_\_\_\_, rounded up to \_\_\_\_\_ wall inlets.  
Ex.: 2,800 sq. ft.  $\div 600 = 4.6$   
rounded up to 5 inlets

Home area up to

**2,800** sq. ft.

Home area up to

**3,000** sq. ft.
