

No leak membrane with toilet seal

The fast and secure way to stop leaky floors!

No-leak membrane covers space where sanitary pipe passes preventing water leakage to floor below.

- ★ **Easy to install:** The innovative rubber membrane centers itself and toilet to the sanitary drain.
- ★ **Secure:** Master Seal provides a water and air tight connection between the water closet and the sanitary drainage system.
- ★ **Multi-Use:** Use on any floor. Extended discharge neck works with any floor flange height.

- ★ **Long life:** Rubber membrane provides more durability than conventional materials. Stays sealed and secure through multiple toilet changes.
- ★ **Do away with mold and mildew:** Rubber material provides higher resistance to the formation of organic materials.
- ★ **All in one:** Universal 3" & 4"
