

ALL BUSINESS NO COMPROMISES

Meet Commercial Needs With Fast Commissioning
And Superior Communication

TC500 Commercial
Connected Thermostat

Honeywell

ELEGANCE AND PERFORMANCE

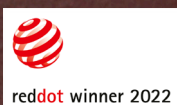

AS EASY TO USE AS IT IS TO INSTALL

With the TC500, businesses can have the style and intuitive control they want along with the advanced commercial features they need. The result is the ideal blend of comfort control and energy savings.

AT A GLANCE

- Ideal for stand-alone commercial applications and integration into building management systems
- Supports up to 5-stage or modulating heating and 3-stage or modulating cooling
- For AHU, RTU and heat pump systems
- Integrated energy-saving features
- Meets commercial building codes
- Remote connectivity via mobile apps
- Embedded setup wizard simplifies installation

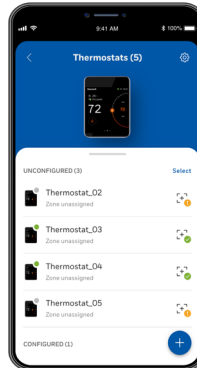

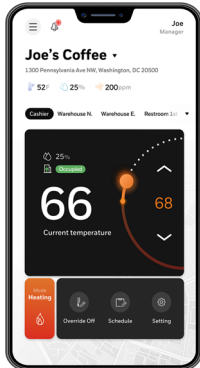

USER BENEFITS

- Exceptional, intuitive user experience with multiple screens, color icons and radio buttons
- Premium modern appearance with edge to edge, high-resolution glass display
- Customizable Standby mode option for discreet appearance
- WiFi connectivity to cloud with mobile app for remote monitoring, control and scheduling
- Upgradeable to multi-site portfolio management system solution as desired
- 5-year warranty
- Open ADR compliance enabling participation in utility energy saving programs

CONTRACTOR BENEFITS

- Fully communicating design via WiFi, BACnet, Bluetooth, and Sylk™
- Provisions for remote sensors and building systems integration
- Multi-screen, intuitive design for simple configuration using the device or mobile app
- Quick multiple thermostat setup using saved configurations in the mobile app
- Multiple-level user types (Contractor, Advanced, Basic, and Visitor Users) for improved security and fewer callbacks
- Commercial-grade design for durability, temperature response and code compliance
- Embedded economizer functionality and predictive differential temperature diagnostics

MOBILE APPS

HONEYWELL CONNECT ME

User App

- Remote control of comfort settings from anywhere, anytime
- View and modify schedule
- Critical alarm notifications
- Free subscription for standard app functionality

HONEYWELL CONNECT

Contractor App

- Time saving setup wizard
- Save templates for cloning
- Share templates within organization
